## INTERNATIONAL STUDENT CELL

### INTRODUCTION

The university's international student cell enhances global engagement by connecting students and faculty, catering to the diverse needs of foreign students from admission to course completion. Responsibilities include aiding in visa documentation, hospitality, and support.

### FUNCTIONS OF INTERNATIONAL STUDENT CELL:

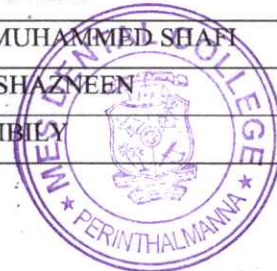

Functions involve facilitating documentation, local stay, and travel arrangements for incoming international students, issuing certificates for visas, and guiding on admissions and fees. Students requiring any help regarding flight tickets are also referred to the international students cell desk. The cell organizes orientation programs and plays a vital role in aligning internationalization initiatives with the institute's strategic objectives, promoting a global profile for quality dental education.

### STRUCTURE OF INTERNATIONAL STUDENT CELL:

Structured with a chairperson and four members, the cell is appointed annually, conducting meetings to address admission processes. Emphasizing "internationalization at home," it benefits the entire university community, supporting staff and student mobility exchanges with international partners while benchmarking local standards against global needs. The following students have been benefitted:
