Vision

MES Dental College aspires to set global standards in dental education, embracing its students in imparting life skills embodied with social responsibility, inculcating human values as the foundation.

Mission

MES Dental College will achieve the vision by

Providing a platform to promote Innovation and research in collaboration with like-minded national and international institutions.

Establishing a foundation of multiple experiential learning channels to promote and nurture life skills for all its stakeholders.

MES Dental College, is situated in MES Academy of Medical Sciences (MES AMS) campus which is registered under the Society Act, Dr. P.A. Fazal Ghafoor is the MES state president and holds the Directorship of MES AMS campus, which constitutes Medical College, Nursing College, and Paramedical Institutions.

MES Dental College, is headed by Convener who interact with Managing committee and frames directive principles and policies with inputs from Principal, vice principal and registrars of Dental College to improve the quality in all aspects.

Our social commitment for providing the best of dental care to deprived communities in and around Malappuram led us in formulating our short and long term plan, at the same time understanding our Strength, Weakness, Opportunity and challenges.

To achieve the same, we are collaborating with organizations and communities.

The Human connection forms the backbone in achieving our vision, in 2018, Kerala faced the worst flooding, in which many lost homes and livelihood.

The students played vital role in supporting the flood relief initiative which was covered by national news channels.

Maintaining momentum and keeping your stakeholders involved in institutional effectiveness throughout the year may present some challenges. Creating a regular process of strategic planning, resource allocation (budgeting), and reviewing strategic planning results will give your stakeholders regular check-points.
