INTERNATIONAL STUDENT CELL (ISC)

INTRODUCTION:

- The institution offers globally acclaimed practices in teaching and learning for international students. Our institution has an active international student cell which facilitates the networking of students and faculty.
- The international student cell takes care of the needs of foreign students from various countries. The International Student Cell takes care of international students during their stay, from the time of their admission to completion of their study. The cell also promotes cordial student-student and student-teacher relationship. It also renders other necessary support required by the international students.
- Currently we do not have any foreign student studying in our institution as a part of university guidelines, but we have NRI students who are assisted for admission by the international student cell with regards to eligibility criteria, permission letters, VISA, passport and other assistance as required.

FUNCTIONS OF INTERNATIONAL STUDENT CELL:

- International Student Cell of University assists incoming international students in streamlining documentation, local stay, hospitality and travel arrangements.
- The students are issued required certificates or reference letters for visits and VISA, on receiving confirmation.
- International student cell helps the aspiring international students regarding the eligibility for admissions, courses available, fees structure etc.
- It creates an inclusive environment for international students by organising orientation programs.
- The responsibility of the international student cell lies in taking care of all the needs of the international students from the admission process to completion of their course.

- The role of the International Student Cell is to lead the development of internationalization at the institute by acting as the central coordinator and facilitator for all internationally related initiatives and activities.
- Ensuring that internationalization activities contribute to the strategic objectives of the institute.
- Creating a global profile as a quality dental education provider
- Bench-marking local needs from global standards .
- Striving for the integration of the global and local in such a way as to add value to both with international activities enhancing student life and staff development at SU, and incoming international students and staff being integrated into the local environment.
- Performing a consultative and facilitation role in assisting the university community in negotiating individual, departmental, faculty and institutional linkages using SU sanctioned guidelines.
- Providing specialist services for international students and applicants.
- Developing and promoting the concept of "internationalization at home" and ensuring that the entire SU community benefits from the growing internationalization of SU.
- Seeking, supporting and facilitating opportunities for SU staff and students to experience academic life at international partner universities through mobility exchanges.

STRUCTURE OF INTERNATIONAL STUDENT CELL:

- The international student cell consists of a chair person and four members to assist the chair person.
- At the beginning of each academic year the head of the institute constitutes the international student cell.
- Before the commencement of academic year the international student cell conducts meeting and discusses about the issues and plans for the admission process and necessary action to be taken in this regard.

FUTURE GOALS :

- Since MES Dental College is planning to be a part of deemed to be university in future , We plan to give visibility to international exchange programs and university partnerships. Thus it promotes international research collaboration, facilitates understanding of the impact of globalization, preparing students to be global citizens and encouraging productive global synergies among students, scholars, alumni, and community.
- The trend of globalization reflects concerns with global issues in science and technology, politics, economics, and culture. Studies in dental care is rapidly expanding in all fields to include internships, innovative research and teaching.
